Columbia, South Carolina 29210

RE: Docket No. 2018-197-E – Application of South Carolina Electric & Gas Company for a Certificate of Environmental Compatibility and Public Convenience and Necessity for the Construction and Operation of the Pepperhill – Summerville 230 kV Line, Williams – Pepperhill 230 Line Segment, Canadys – Faber Place 230 kV Line Segment, and Associated Facilities and Request for Like Facilities Determinations.

Dear Ms. Boyd:

By Order No. 2018-707, issued in Docket No. 2018-197-E and dated October 31, 2018, the Public Service Commission of South Carolina (“Commission”) granted Dominion Energy South Carolina, Inc. (“DESC” or “Company”) a Certificate of Environmental Compatibility and Public Convenience and Necessity for the construction and operation of the Pepperhill – Summerville 230 kV Line, Williams – Pepperhill 230 kV Line Segment, Canadys – Faber Place 230 kV Line Segment, and Associated Facilities in Berkeley and Charleston Counties. Pursuant to a Stipulation in the above-referenced docket, DESC agreed to notify the Commission and the South Carolina Office of Regulatory Staff (“ORS”) when the facilities began commercial operation and of any changes to the planned commercial operation dates of the lines. By this letter and in compliance with terms of the Stipulation in Docket No. 2018-197-E, DESC hereby notifies the Commission that the Canadys – Faber Place 230 kV Line Segment and the Williams – Pepperhill 230 kV Line Segment have entered commercial operation; the Canadys – Faber Place 230 kV Line Segment was energized on May 6, 2019, and the Williams – Pepperhill 230 kV Line Segment was energized on September 16, 2019. DESC also notifies the Commission that the Pepperhill – Summerville 230 kV Line, originally scheduled to be in service by May 1, 2020, is now planned to be in service by January 1, 2021. The Company has confirmed that, as things currently stand, the delay will not result in violations of either NERC Transmission Planning Standards or SCE&G’s Long-Range Planning Criteria.

By copy of this letter and in compliance with the Stipulation, we are also providing ORS with notification of the commercial operation of the Canadys – Faber Place 230 kV Line Segment and the Williams – Pepperhill 230 kV Line Segment and of the change in planned commercial operation date of the Pepperhill – Summerville 230 kV Line.

The Honorable Jocelyn G. Boyd
